Magnificent opportunity of buying a typical Spanish townhouse with a nearly new roof and with the option of choose your own distribution. The property needs a total reform but at the downstairs floor they have already fitted steel beams to keep the house empty and make the distribution you would like. The distribution briefly comprises of; Ground floor; Empty space to the interior courtyard, courtesy toilet and the old stables with two floors. The original staircase leads to the first floor where we can find an empty area ideal to build several bedrooms with bathroom an exterior terrace. There is also the possibility to convert the old stables into a separate guest apartment. The views are more than recommended to appreciate the potential and its ideal location.~ .
