A relatively modern Finca built on a large level plot and close to the village with all the amenities including bars and restaurants. The property is accessed through a remote sliding gate that leads through to a parking area with double car port. A lovely feature door then leads through to the wonderful pool terrace with a kidney shaped pool and an outside shower. Finally we arrive to the main house with a covered porch, double doors to the huge lounge, fully fitted nice sizes kitchen, double bedroom with fitted wardrobes currently used as a study, large bathroom and the second bedroom with built-in wardrobes. Marble stairs lead up to the second floor where we could find a large double bedroom with fitted wardrobes, a very large bathroom with separate shower cubicle and an outside balcony with nice views to the Valley and the Sea. The property benefits from gas

central heating, double glazed windows with roller blinds, mosquito nets and security grills, ceiling fans at the bedrooms, solid wooden interior doors, wooden beams, private water well and a huge separate outbuilding and livestock cages which have been previously used as kennels. The property is in excellent condition and viewing is highly recommended to appreciate the details of the construction and the ideal location.
